

Normalization of COIL – GLE at DePaul

- Vision 2018:
 - Leveraging the global diversity of Chicago, infuse international and comparative perspectives throughout the teaching, research and service mission of the University
- Goal IV:
 - Intercultural and global understanding
 - DePaul graduates will demonstrate:
 - respect for and learning from perspectives of others different from themselves
 - Knowledge of global interconnectedness and interdependencies
- GLE as one of the available tools for faculty in the above context
- Normalization as diffused shared culture of GLE as “normal” vs “special-exceptional”
