# Aims of ICC@Home

- compare and reflect about the ***quality of care of OT services for a specific client group*** in different European countries
- ***sharing thoughts and information*** with students from foreign countries
- show awareness as an ***international and intercultural being***, by reflecting on similarities and differences.

# The assignments of ICC@Home

## 1: Case comparison

Write a report about a case comparison between “your” countries with regard to quality and content of OT services for a client group.

## 2: Cross-cultural dialogue on the European theme of the year 2015:

Development, Diversity and Occupational Justice

## 3: Reflection report

The competences trained and gained during the project.

## Student reflections

- Great way to practice my English.
- They do great things in other countries almost better than we do.
- Inspiring.

## One students reflection

- *“I have learned a lot in this project but I think that it is so much more to learn out there. The good thing is that this project has got me all excited about continue to do research about differences and similarities in people’s and countries approaches when it comes to disabilities.”*
