Testimonials:

“I think it was an excellent project because I learned from another culture, their customs, their food, their places. Also, I could speak English with my partner with more confidence. Speaking English helped me.”

“This experience helped me grow, not only as an English speaker, but also as part of the world community. I identified cultural differences that make us rich. I also learned to be sensitive when listening to other people and tolerant to understand other points of view.”

“I learned how to do a Power Point. I met new friends. I learned some more traditional customs. The online party was the best.”

Culture makes people understand each other better. And if they understand each other better in their soul, it is easier to overcome the economic and political barriers. But first they have to understand that their neighbor is, in the end just like them, with the same problems, the same questions.

Paulo Coelho
