

## **expectations**

Static? Evolving? Devolving?

## **impediments**

Technology, timing, communication, workload, leadership, preparation, training, support ....

## **successes**

Where it all came together

## **ho hums**

Were the promises and efforts worth it .... or were the results not significantly different from standard operating procedure?

## **student experience**

What's the feedback? Was this just another crazy idea?

## **final reflections**

Your considered take-aways
